BUZZ

Buzz is the volume of discussion (good and bad) around your research. It's a good—if coarse—measure of online interest around your work.

Menciones

ENGAGEMENT

Engagement is about *how* people are interacting with your research online. What's the quality of the discussion, who is having it, and where?

Interacciones

OPENNESS

Openness looks at how easy it is for people to actually read and use your research; publishing in Open Access venues is a big part of this, but so is publishing open data and code, and publishing in ways that build lay and practitioner audiences.

Accesibilidad

FUN

Fun achievements are Not So Serious.
